

## myfab LIMs in IIIV

### myfab LIMS

- Laboratory management system that was developed at Chalmers and now used in three laboratories Chalmers MC2, Uppsala, and Electrumfab.
- Web based, easy to use
- Initially was used for equipment booking, training, etc., but now being rolled out to full implementation
- Will replace current system and be used for lab charges
- All tools now charged by hour (previously by run)
- Lithography charged by tool
- Charges will be by booked slots
- Access is per month - no daily charge
- You must be a 'user' to log on and book equipment or request training
- Start here ... <http://lims.tyndall.ie>

### Tracking

- You can use batch numbers by going to [Home](#) » [Tools](#) » [Batches](#) » [Log history by batch](#).
- You can search for jobs done on a specified tool, i.e. [Home](#) » [Tools](#) » [Log](#) » [Log history by tool](#)
- Similarly for bookings, i.e. [Home](#) » [Tools](#) » [View bookings](#) » [All bookings](#)

- You can only book tools that on which you have a ‘licence’.
- You can only book tools to projects that you are a ‘member’ of.
- Project Leaders can add members.
- You must book all work, bookings can be made retrospectively.
- You must log all work. No booking is possible if non-logged work over a week.
- LIMs manual available at homepage>info>general documents, as well as fab induction and particle counts.
- Also more information available under Info>Tool documents such as operating procedures, process information, etc.
- This library will be built up in future.
- **Remember - Book all work, Log all booked and completed work**

### Charges

LIMs - Necessary to charge all tool usage for selected equipment by the hour.

Tool	Rate	Cost / Hr
Dielectric coater	D	86
